

NEW! Mad Science – Eureka “The Inventor’s Camp” (CE)

Ages 7-12

NEW to the Medinah Park District, Mad Science is offering VIRTUAL summer science camps. Their virtual camps are taught by experienced Mad Scientists who are guaranteed to keep the kids engaged! This camp is taught live allowing for personal interaction with their peers, all from the comfort and safety of your home!

The Eureka Inventor’s Camp will inspire the inventor and scientist in you! Campers will overcome a series of challenges using basic materials, simple machines, tips from famous inventors and the most important of all----their mind! With a little bit of ingenuity children will create catapults and forts, and even construct their own working Light Sabers!! While Thomas Edison said "invention is 10% inspiration and 90% perspiration", this camp is 100% FUN!

Pricing includes Camp Bags that will either be mailed or delivered directly to the kids in advance of camp starting. Camp Bags will include the necessary log in information to access the camps, at home activity sheets, list of optional materials kids can gather to perform some of the experiments at home and our cool take home items. All Camp Bag contents are designed to give kid hands-on experience during the classes and to extend the educational impact with activities that can be done long after the live portion is completed. Camps will be capped in size to maintain that personal experience for each participant, virtual campers will be able to interact with each other and with our Mad Scientists as they work on projects! At our discretion, Mad Science may combine kids from several different partners to reach minimum enrollment numbers.

NEW! Mad Science – “Mission Code: Coding for Kids” (CE)

Ages 7-13

NEW to the Medinah Park District, Mad Science is offering VIRTUAL summer science camps. Their virtual camps are taught by experienced Mad Scientists who are guaranteed to keep the kids engaged! This camp is taught live allowing for personal interaction with their peers, all from the comfort and safety of your home!

Mission Code is a unique summer camp experience that allows kids to learn essential coding skills while also engaging in active games and hands-on learning. Kids will develop computational thinking and problem solving skills in an online game environment where you give a robot a set of instructions to follow in order to solve the level. Each coding session provides kids with a fundamental skill set including algorithms, functions, relative directions and sequences. ***Upon registration, Jr. Coders will receive logins to a series of 10 pre-recorded sessions, led by Mad Science. Jr. Coders will also receive a SCRIB coding robot (\$19.95 value) to experiment with and the ability to access to the coding platform for 12 months.*** This program is 100% online with pre-recorded instruction by a Mad Scientist. Sign-ups can be taken throughout the summer.
