# **Medinah Park District**

22W130 Thorndale Avenue Medinah, Illinois 60157 (630) 893-2560 FAX: (630) 893-0932

June 3, 2019

Board of Commissioners and Citizens of the Medinah Park District 22W130 Thorndale Avenue Medinah, IL 60157

The Comprehensive Annual Financial Report (CAFR) of the Medinah Park District for the fiscal year ending December 31, 2018 is hereby submitted as mandated by statutes. This report provides a broad view of the District's financial activities for the 2018 fiscal year and its financial position at December 31, 2018. These statements are presented in conformity with general accepted accounting principles (GAAP). Sikich LLP, a firm of licensed certified public accountants, has issued an unmodified ("clean") opinion on the Medinah Park District's financial statements for the year ended December 31, 2018. The independent auditor's report is located at the front of the financial section of the report.

The report consists of management's representations concerning the finances of the Medinah Park District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed to both protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Medinah Park District's financial statements in conformity with accounting principles generally accepted in the United States (GAAP). Because the cost of internal controls should not outweigh its benefits, the District's comprehensive framework on internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements are free from material misstatement. As management, we assert that, to the best or our knowledge and belief, this financial report is complete and reliable in all material respects.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter complements the MD&A and should be read in conjunction with it.

#### **Profile of the Medinah Park District**

The District is located in DuPage County and is 25 miles northwest of downtown Chicago, in an established community consisting primarily of residential property. The District serves all of unincorporated Medinah and portions of unincorporated Itasca as well as portions of the Village of Roselle. The population of the District is estimated to be approximately 9,500.

The District, incorporated in 1965, operates under a Board-Director form of government. Policymaking authority is vested in a governing board (Board of Commissioners) consisting of the President and four other members. Board members are elected at large and serve four year terms, with elections every two years. The Board appoints the Executive Director who is responsible for the day to day operations of the District.

The District provides recreation services and opportunities to all residents of the District. To accomplish this, the District follows written mission and vision statements. Its mission states: "The mission of the Medinah Park District is to 1) Enhance the Quality of Life of the Park District Community 2) Promote Sound and Effective Use of Park District Resources 3) Provide Safe and Enjoyable Opportunities and 4) Preserve and Maintain Open Space. Its vision states: To Consistently Deliver on Community Expectations by Providing & Promoting High Quality Experiences & Facilities at a Great Value to our Customer.

Based upon this mission and vision, the District provides recreational programs, park management, capital development and general administration. Facilities operated by the Park District include the Connolly Recreation Center, 10 park sites totaling 105 acres of park land, a maintenance facility, and various ball diamonds, athletic fields, tennis courts, playgrounds, a sled hill, over 5 miles of trails and multiple picnic areas.

The District includes all departments of its governmental operations that are controlled by or dependent upon the District as determined on a basis of financial accountability. There are no other organizations for which we have financial accountability. The District, however, participates in the Illinois Municipal Retirement Fund (IMRF), the Northeast DuPage Special Recreation Association (NEDSRA), and the Park District Risk Management Agency (PDRMA). These organizations are considered separate governmental units because they are organized entities, have governmental character and are substantially autonomous. Audited financial statements for these organizations are not included in this report. However, such statements are available upon request from their respective business offices.

The District is required to adopt a final budget and appropriation ordinance by no later than three months after the beginning of the fiscal year. This annual budget serves as the foundation for the Medinah Park District's financial planning and control. The budget is prepared by fund and program activity. Department heads may transfer resources within a program as they see fit. Transfers between funds, however, need special approval from the Board of Commissioners.

#### **Factors Affecting Economic Condition**

# **Local Economy**

Medinah is primarily a stable, fully developed, residential community. The District continues to experience limited growth in both residential and commercial development. Assessed valuation of \$364,622,844 for tax year 2018 represents an increase of 4.64 % compared to tax year 2017. The Medinah Park District continues to strive to monitor social, economic and population changes and to alter programs and services to meet the needs of its residents.

# **Long -Term Financial Planning**

The District has operated since 1999 under the Tax Limitation Act. The District's adopted fund balance policy establishes an appropriate level of reserves for each fund. These reserve levels are monitored to ensure that the fund balances are increasing and reaching appropriate levels.

#### **Future Initiatives**

The Park District's capital Master Plan was completed during the fall of 2017 and included new playgrounds, trail systems, ball field upgrades, tennis court rehabilitation, complete redesign of the Recreation Center, a new electronic message sign and upgrades in safety lighting. The District has a new nine year Capital Plan/Equipment Replacement Fund Plan to help guide it through the 2027 fiscal year. This new plan includes 2019 upgrades to playgrounds, park lighting, tennis courts and building roofs. A new F-350 pickup truck was purchased in 2018 and 2 new HVAC systems were added in 2018. The District has finalized the development of a new three year strategic plan which is expected to be approved in final form in early 2019. Future challenges will continue to be increased competition from the private sector for participants and users, continued maintenance and repair of park lands and facilities as well as unfunded state mandates increasing at a rate that has outpaced recent inflation.

#### **Acknowledgments**

The financial report was compiled through the efficient and dedicated efforts of the Business Department and the cooperation and assistance of the entire Medinah Park District staff. The staff would like to thank the Board of Commissioners for their interest and support in planning and conducting financial operations of the District in a responsible manner.

Sincerely,

Bruce E. Baum Executive Director

Maria Piworski Superintendent of Finance & HR

# INDEPENDENT AUDITOR'S REPORT

Board of Commissioners Medinah Park District Medinah, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Medinah Park District, Medinah, Illinois (the District), as of and for the year ended December 31, 2018, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Medinah Park District, Medinah, Illinois, as of December 31, 2018, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Sikich LLP

Naperville, Illinois June 3, 2019

# GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

# Management's Discussion and Analysis December 31, 2018

The Medinah Park District ("the District") discussion and analysis is designed to: (1) summarize the financial highlights of the District, (2) provide an overview of the District's financial position, (3) evaluate the District's recent activities resulting in net asset changes, (4) identify any material deviations from the financial plan (the approved budget), (5) review material changes in capital assets and long-term debt and (6) recognize current facts or conditions that will impact the District.

We encourage readers to consider the information presented here in conjunction with additional information that has been furnished in the transmittal letter, which can be found on page iv of this report, and the District's Financial Statements, beginning on page 12.

# **Financial Highlights**

- The assets of the District exceeded its liabilities at the close of the December 31, 2018 by \$4,670,678 (net position), an increase of \$151,623 in comparison with the prior year. Of the District's net position, \$203,252 (unrestricted net position) may be used to meet the District's ongoing obligations to citizens and creditors.
- The District's combined Governmental Funds ending fund balance was \$1,175,737, an increase of \$193,347 in comparison with the prior year. Approximately 60% of this total fund balance, \$701,609, is available for spending at the discretion of the district (both unassigned and assigned fund balances).
- At the end of the current fiscal year, the unassigned fund balance for the General Fund was \$557,158 or 99% of the General Funds expenditures.
- Governmental debt outstanding is \$1,480,000 a decrease of \$80,000 (about 5.1%) during the current fiscal year.

#### Overview of the Financial Statements

Management's Discussion and Analysis introduces the District's basic financial statements. The basic financial statements include: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements.

#### **Government Wide Financial Statements**

The District's annual report includes two government-wide financial statements. These statements are designed to provide readers with a broad overview of the Medinah Park District's finances. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities. The government—wide statements are highly condensed and present information about the District's finances and operations as a whole, with a longer-term view.

The first of these government-wide statements is the <u>Statement of Net Position</u>. This is the District wide statement of position presenting information that includes all of the District's assets and liabilities, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors such as diversification of the taxpayer base or the condition of the District's infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the <u>Statement of Activities</u> which reports how the District's net position changed during the current fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. (e.g. uncollected taxes)

The activities presented in the District's government-wide financial statements are governmental activities. Governmental activities are principally supported by taxes and intergovernmental revenues. Governmental activities include general government and recreation. The District does not report any business type activities. The government-wide financial statements are presented on pages 4-5 of this report.

#### **Fund Financial Statements**

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The District categorizes all of its funds as governmental.

Governmental funds are used to account for the same functions reported as governmental activities in the government-wide financial statements. The focus, however, is very different with fund statements providing a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating annual financing

requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. For the <u>Balance Sheet Governmental Funds</u> and the <u>Statement of Revenues</u>, <u>Expenditures</u>, <u>and Changes in Fund Balances Governmental Funds</u> a reconciliation is provided to facilitate a comparison between the governmental fund statements and the government-wide statements.

The analysis of the District's funds begins on page 6. These statements reinforce information in the government-wide financial statements or provide additional information. The major funds are presented individually, while the remaining funds are combined into a column titled "Non-major Government Funds." Individual fund data for each of the non-major governmental funds is provided in the form of combining statements on pages 49 through 55.

#### THE MAJOR FUNDS

General, Recreation, Special Recreation, Capital Projects

### THE NON-MAJOR FUNDS

Audit, Liability Insurance, Paving and Lighting, Working Cash, Bond and Interest

Budgetary comparison statements are included in the required supplementary information for the general fund and each major special revenue fund. Budgetary comparison schedules for other special revenue funds can be found in a later section of the report. These statements and schedules demonstrate compliance with the District's adopted annual appropriated budget.

The basic governmental fund financial statements are presented on pages 6-10 of this report.

#### **Notes to the Financial Statements**

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 11 of this report.

## **Required Supplementary Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information includes detail by fund for receivables, payables, transfers and payments within the reporting entity. Required supplementary information can be found on pages 30-34 of this report.

# **Government-wide Financial Analysis**

Over time, as year to year financial information is accumulated on a consistent basis, changes in net position may be observed and used to discuss the changing financial position of the District as a whole. The District's combined net assets and deferred outflows exceeded liabilities and deferred inflows by \$4,670,678 as of December 31, 2018.

Below are two tables; condensed Statement of Net Position and Statements of Changes in Net Assets.

The following table reflects the condensed Statement of Net Position:

TABLE 1
STATEMENT OF NET POSITION
December 31, 2018 and December 31, 2017

	Governmental	Activities
	2018	2017
Assets Current and other Assets Capital Assets Total Assets	\$ 2,478,569 5,473,298 7,951,867	\$ 2,267,992 5,585,858 7,853,850
Deferred Outflows of Resources	<u> 158,550</u>	188,053
Total Assets and Deferred Outflows of Resources	8,110,417	<u>8,041,903</u>
Liabilities Current Liabilities Noncurrent Liabilities  Total Liabilities	88,812 1,985,111 2,073,923	189,486 2,124,303 2,313,788
Deferred Inflows of Resources	1,365,816	1,209,060
Total Liabilities and Deferred Inflows of Resources	3,439,739	3,522,848
Net Position		
Net Investment in Capital Assets	4,210,735	4,248,835
Restricted Unrestricted	256,691 203,252	107,108 163,112
Total Net Position	\$ 4,670,678	\$ 4,519,055

As of December 31, 2018, by far the largest portion of the Medinah Park District's net position, 90.1% reflects its investment in capital assets (e.g. land, buildings, land improvements and equipment); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to users of the District; consequently these assets are not available for future spending. Although the District's investments in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position, 5.5% or \$256,691 reflect resources that are subject to external legal or contractual restrictions on how they may be used. The remaining 4.4% or \$203,252 reflects resources that are unrestricted and may be used to meet the District's ongoing obligations to its residents and creditors. For more detailed information, see Statement of Net Position on page 4. A summary of the Changes in Net Position is shown in Table 2 with a comparison to the prior year's activity.

TABLE 2
CHANGES IN NET POSITION
December 31, 2018 and December 31, 2017

	Governmental Activities						
Revenues	2018	2017					
Program Revenues:	\$ 328.199	\$ 366.018					
Charges for services	\$ 328,199	\$ 366,018					
General Revenues	4 045 400	4 005 500					
Taxes	1,215,498	1,235,536					
Investment Income	10,416	4,254					
Grants and Donations	9,816	9,962					
Other	<u>79,609</u>	28,123					
Total Revenues	<u> 1,643,538</u>	<u>1,643,893</u>					
Expenses Program Expenses: General Recreation Interest Total Expenses	560,049 867,828 64,038 1,491,915	810,167 854,957 <u>66,438</u> 					
Change in Net Position	151,623	(87,669)					
Net Position, January 1	4,519,055	6,148,357					
Prior Period Adjustment	0	<u>(1,541,632)</u>					
Net Position, December 31	<u>\$ 4,670,678</u>	<u>\$4,519,055</u>					

#### **Governmental Activities**

The Medinah Park District's net position increased by \$151,623 as revenues continued to exceed expenses.

The cost of all governmental activities this year was \$1,491,915. Interest expense on debt, captured 4.29% of the total expenses. Recreation expenses captured 95.71% of the total expenses.

The table below presents the cost of each of each of the District's largest functions, as well as the program's net costs (total cost less revenues generated by the activities), with comparative data from December 31, 2017. The net cost highlights the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows the citizens to consider the cost of each function in comparison to the benefits they believe are provided for that function.

Table 3
Governmental Activities
December 31, 2018 and December 31, 2017

	Total Cost o	f Services	Net Cost of	Services
	2018	2017	2018	2017
General	\$560,049	\$810,167	\$430,189	\$681,203
Recreation	867,828	854,957	659,673	607,941
Interest	64,038	66,438	64,038	66,438
<b>Total Expense</b>	\$1,491,915	1,731,562	\$1,153,900	1,355,582

### **Financial Analysis of the District's Funds**

As noted earlier, the Medinah Park District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

#### **Government Funds**

The governmental funds provide information on short term inflows, outflows and balances of spendable resources. This information is useful in assessing resources available at the end of the year in comparison with upcoming financial requirements. In particular, unassigned fund balances may serve as a useful measure of the government's net resources available for spending at the end of the fiscal year. The General and Recreation funds are the primary operating funds of the District.

At the end of the current fiscal year the governmental funds reported a combined ending fund balance of \$1,175,737, an increase of \$193,347 in comparison with the year prior.

#### Revenues

Compared to 2017, total revenue for the governmental funds decreased in 2018 by \$355 to \$1,643,538. Property tax revenue represented the largest portion of the revenue base, generating 73.96% of the total. Property taxes fund governmental activities, including but not limited to Liability, Paving and Lighting, Audit, Special Recreation and Capital Projects.

Charges for services of \$328,199 represented 19.97% of the revenue base. The District does not receive 100% of its funding through property taxes to cover the costs associated with program offerings. Thus it must charge a user fee for programs and services provided to the public. Pricing of programs is evaluated each year before the preparation of the following fiscal year budget.

## **Expenditures**

The total cost of providing programs and services for the governmental funds of the District was \$1,646,382 in 2017 compared to \$1,450,191 in 2018. Of the 2018 total, expenditures associated with the General Fund captured 38.8% of the total and expenditures associated with the Recreation Fund captured 37.3% of the total.

# **General Fund Budgetary Highlights**

During the 2018 budget year the District did not revise the annual operating budget of the general fund. The fund is reported as a major fund and accounts for the routine park operations of the District. The overall performance of the fund was slightly more than budgeted. Due to an increase in revenues and decrease in expenses, the fund balance at year end was more than budgeted. At the end of the current fiscal year, the General Fund had a positive fund balance of \$736,594.

# **Recreation Fund Highlights**

During the 2018 budget year, the Recreation Fund Balance increased by \$20,485 to \$144,451 compared to the 2017 ending balance of \$123,966.

## **Debt Service Fund Highlights**

During the 2018 budget year, the Debt Service Fund Balance increased by \$1,220 to \$17,072 compared to the 2017 ending balance of \$15,852.

### **Capital Fund Highlights**

During the 2018 budget year, the Capital Fund Balance decreased by \$5,540 to \$217,437 compared to the 2017 ending balance of \$222,977. The change in fund balance is due to additional capital outlay in 2018.

# **Capital Asset and Debt Administration**

# **Capital Assets**

The District's investment in capital assets, net of accumulated depreciation as of December 31, 2018 was \$5,473,298. This investment in capital assets includes land, buildings, improvements to land and machinery and equipment. There were capital projects during 2018.

TABLE 4
Capital Assets (net of depreciation)
December 31, 2018 and December 31, 2017

	<u>2018</u>	<u>2017</u>
Land	\$ 1,226,633	\$1,226,633
Land Improvements	287,225	315,634
Building	3,761,077	3,863,024
Equipment	143,318	157,492
Licensed Vehicles	55,045_	23,075
Net Capital Assets	<u>\$ 5,473,298</u>	<u>\$ 5,585,858</u>

The District showed a decrease in governmental net capital assets primarily due to depreciation. Additional information on the Medinah Park District's capital assets can be found in Note #4 on page 19.

#### **Debt Administration**

As of December 31, 2018 the Park District has general obligation bond issues outstanding of \$1,480,000. The debt service on general obligation bonds is paid with property taxes. Currently the District's bonds are rated AA-. Additional information on the District's long term debt can be found in Note #5 beginning on page 20.

The District computation of legal debt margin is subject to a statutory debt limitation of 2.875% of equalized assessed valuation. The current legal debt margin for the Medinah Park District is \$8,538,134. See page 58 for additional information.

# Factors bearing on the District's Future

Many trends and economic factors can affect the future operations of the District. At the time these financial statements were prepared and audited, the District is aware of existing circumstances that could adversely affect its financial health in the future.

- The continuing negative effect of the tax cap on the District's property tax revenue.
- The current economic condition of the State of Illinois.
- Low interest rate earnings.
- Increased competition from private industry for participants and users.

During 2018, the District was in the beginning stages of planning for a 3 year strategic plan which would include the years of 2019 through 2021. This action has and should ensure the stability of the Park District into the future. The District is committed to providing all its services and operations in a responsive, efficient and cost effective manner while retaining the high level of services it provides. The key to continued future financial health for the District is sound planning. This includes conservative revenue projections for future years and vigilant cost controls at all levels.

## **Contacting the District's Financial Management**

This financial report is designed to provide a general overview of the District's finances, comply with finance related laws and regulations and demonstrate the District's commitment to public accountability. If you have any questions about this report or would like to request additional information, please contact the Superintendent of Finance and Human Resources of the Medinah Park District, 22W130 Thorndale Avenue, Medinah, Illinois 60157.

# RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES

For the Year Ended December 31, 2018

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$ 193,347
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures; however, they are capitalized and depreciated in the statement of activities	65,783
Depreciation on capital assets is reported as an expense in the statement of activities	(178,343)
The change in certain liabilities are reported as expenses on the statement of activities  Compensated absences	(385)
The change in the Illinois Municipal Retirement Fund net pension liability, deferred inflows and deferred outflows are not a source or use of a financial resource	(8,779)
The repayment of long-term debt is reported as an expenditure when due in governmental funds but as a reduction of principal outstanding in the statement of activities	 80,000
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$ 151,623

#### NOTES TO FINANCIAL STATEMENTS

December 31, 2018

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Medinah Park District, Medinah, Illinois (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

# a. Reporting Entity

The District is a body corporate and politic established under Illinois Compiled Statutes (ILCS) incorporated in 1950. The District operates under a Board-Manager form of government, providing recreation and other services to the residents of Medinah, unincorporated Itasca, and a portion of Roselle, which include: recreation programs, park management, capital development and general administration. The District has a separately elected board. The District is considered to be a primary government as defined by GASB Statement No. 14 and No. 61, since it is legally separate and fiscally independent. The accompanying basic financial statements present the District only since the District does not have component units.

#### b. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into the following categories: governmental, proprietary and fiduciary. The District does not have any proprietary or fiduciary funds.

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of restricted, committed or assigned monies (special revenue funds), the funds restricted, committed or assigned for the acquisition or construction of capital assets (capital projects funds), the funds restricted for the servicing of governmental long-term debt (debt service funds) and the management of funds held in trust where the interest earnings can be used for governmental services (permanent fund). The General Fund (corporate) is used to account for all activities of the government not accounted for in some other fund.

NOTES TO FINANCIAL STATEMENTS (Continued)

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District. The effect of material interfund activity, other than interfund service transactions, has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on user fees and charges for support. The District does not report any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Contributions of land by developers under land/cash ordinances are reported as capital grants and contributions on the statement of activities.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those accounted for in another fund.

The Recreation Fund, a special revenue fund, is used to account for revenue and expenditures related to recreation programs funded by a restricted tax levy and user fees.

The Special Recreation Association Fund, a special revenue fund, is used to account for property taxes restricted for funding recreation activities for special recreation purposes.

The Debt Service Fund is used to account for the accumulation of resources for the payment of general long-term debt principal, interest and related costs.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and all liabilities associated with the operation of these activities/funds are included on the statement of net position. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Program revenues consist of user fees and other charges for services, operating grants and capital grants.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period (60 days). The District recognizes property taxes when they become both measurable and available in the year intended to finance. Expenditures are recorded when the related liability is incurred. However, debt service expenditures are recorded only when payment is due, unless due the first day of the following fiscal year.

Those revenues susceptible to accrual are property taxes, interest revenue and charges for services.

The District reports deferred/unearned revenue on its financial statements. Deferred/unearned revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period for governmental funds or earned at the government-wide level. Deferred/unearned revenues also arise when resources are received by the District before it has legal claim to them as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when revenue recognition criteria are met, or when the District has a legal claim to the resources by meeting all eligibility requirements, the deferred inflows of resources or liability is removed from the financial statements and revenue is recognized.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### e. Cash and Investments

Investments with maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with maturity greater than one year at time of purchase, if any, are stated at fair value. The District categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The District held no investments to measure at fair value at December 31, 2018.

### f. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., bike trails, paths and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000, tangible in nature and have an estimated useful life in excess of one year. Such assets are reported at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant and equipment is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years		
Land improvements	20		
Buildings and constructed assets	20-50		
Machinery and equipment	5-20		
Licensed vehicles	8		

### g. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### g. Long-Term Obligations (Continued)

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

#### h. Compensated Absences

Vacation leave is recorded in governmental funds upon employee retirement or termination. Vested or accumulated vacation leave of governmental activities is recorded as an expense and liability as the benefits accrue to employees. For full-time employees, vacation days must be used by the employee's anniversary date or they are forfeited. Part-time employees are given paid time off based on a paid time off policy and schedule. The amount of time they are eligible for is based on actual hours worked in the prior year. The District allows an employee to accumulate a maximum of 240 sick days. Unused sick leave is cancelled when an employee leaves the District. Therefore, no liability is recorded for nonvesting accumulated rights to receive sick pay benefits

#### i. Property Taxes

The District's property taxes are required to be levied by ordinance. A certified copy of the levy ordinance must be filed with the county clerk no later than the last Tuesday in December of each year. Taxes are due and collectible one-half in June and one-half in September of the following year. Property taxes attach as an enforceable lien on property as of January 1. Property taxes which have been levied but are not due before the end of the fiscal year are recorded as receivable. The entire receivable is offset by deferred property tax revenue as they are intended to finance the subsequent fiscal year. The provision for uncollectible taxes is computed based upon a percent of the total current levy as extended.

# j. Net Position/Fund Balances

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### j. Net Position/Fund Balances (Continued)

Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose or externally imposed by outside entities. None of the restricted fund balance result from enabling legislation adopted by the District.

Committed fund balance is constrained by formal actions of the District's Board of Commissioners, which is considered the District's highest level of decision-making authority. Formal actions include ordinances approved by the Board of Commissioners. The Board of Commissioners would also take action to modify or rescind committed fund balance, if applicable.

Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance remains with the Board of Commissioners. Any residual fund balance in the General Fund is reported as unassigned. Deficit fund balances in other governmental funds are also reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned and then unassigned funds.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net investment in capital assets represents the District's investment in the book value of capital assets, less any outstanding debt that was issued to construct or acquire the capital asset.

#### k. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 1. Interfund Transactions

Reciprocal interfund service transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions are reported as transfers.

# m. Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other fund" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans).

#### n. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

#### 2. DEPOSITS AND INVESTMENTS

ILCS and the District's investment policy authorize the District to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services and The Illinois Funds.

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, and thus, reports all investments at amortized cost rather than market value. The investment in The Illinois Funds by participants is also reported at amortized cost. The Illinois Funds does not have any limitations or restrictions on participant withdrawals. The Illinois Treasurer's Office issues a separate financial report for The Illinois Funds which may be obtained by contacting the Administrative Office at Illinois Business Center, 400 West Monroe Street, Suite 401, Springfield, Illinois 62704.

NOTES TO FINANCIAL STATEMENTS (Continued)

# 2. DEPOSITS AND INVESTMENTS (Continued)

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal), liquidity and yield.

### Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance with the collateral held by a third party in the District's name.

#### Investments

Interest rate risk is the risk that change in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds.

The District limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government or securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government and The Illinois Funds. The Illinois Funds is rated AAA.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in possession of an outside party. The District's investment policy does not address custodial credit risk for investments.

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy does not address concentration of credit risk.

#### 3. PROPERTY TAX CALENDAR

The following information gives significant dates on the property tax calendar of the District:

- The property tax lien date is January 1;
- The annual tax levy ordinance for 2018 was passed November 14, 2018;
- Property taxes are due to the County Collector in two installments, June 1 and September 1; and
- Property taxes for 2018 are normally received monthly beginning in June and generally ending by November 2019.

# 4. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2018 was as follows:

	Beginning		Ending	
	Balances	Increases	Decreases	Balances
GOVERNMENTAL ACTIVITIES Capital assets not being depreciated				
Land	\$ 1,226,633	\$ -	\$ -	\$ 1,226,633

2023		95,000		49,763				
2024-2028		535,000		187,614				
2029-2033		500,000		59,313				
TOTAL	\$	1,480,000	\$	525,892				

The District is subject to the Illinois Park District Code which limits the amount of bond indebtedness to 2.875% of the most recently available equalized assessed valuation. As of December 31, 2018, the District's legal debt margin is \$8,538,134.

#### **6. JOINT GOVERNED ORGANIZATION**

The District is a member of the Northeast DuPage Special Recreation Association (NEDSRA), whose membership includes eight area park districts and three villages in order to provide special recreation programs for physically and mentally challenged individuals and to share the expenses of such programs on a cooperative basis. The NEDSRA's Board of Directors consists of one representative from each participating entity. The Board of Directors is the governing body of NEDSRA and is responsible for establishing all major policies and changes therein and for approving all budget, capital outlay, programming and master plans. The District is not financially accountable for the activities of NEDSRA and, accordingly, NEDSRA has not been included in the accompanying financial statements. The audited financial statements of NEDSRA are available at 1770 Centennial Place, Addison, Illinois 60101. The District contributed \$84,765 to the Association during the current fiscal year.

NOTES TO FINANCIAL STATEMENTS (Continued)

#### 7. RISK MANAGEMENT

The District is a member of the Park District Risk Management Agency (PDRMA), a risk management pool of park and forest preserve districts and special recreation associations through which property, general liability, automobile liability, crime, boiler and machinery, public officials' and workers' compensation coverage is provided in excess of specified limits for the members, acting as a single insurable unit. In the event losses exceeded the per occurrence self-insured and reinsurance limit, the District would be liable for the excess amount. PDRMA's Board of Directors evaluates the aggregate self-insured limit annually.

As a member of PDRMA, the District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the District's governing body.

The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, to cooperate with PDRMA, its claims administrator and attorneys in claims investigation and settlement and to follow risk management procedures as outlined by PDRMA. Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

Since 96% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the member balances are adjusted annually as more recent loss information becomes available.

On March 1, 1999, the District became a member of the Park District Risk Management Agency (PDRMA) Health Program, a health insurance pool of park districts, special recreation associations and public service organizations through which medical, vision, dental, life and prescription drug coverages are provided in excess of specified limits for the members, acting as a single insurable unit. The pool purchases excess insurance covering single claims over \$250,000. Members can choose to provide any combination of coverages available to their employees, and pay premiums accordingly.

NOTES TO FINANCIAL STATEMENTS (Continued)

### 7. RISK MANAGEMENT (Continued)

As a member of the PDRMA Health Program, the District is represented on the Health Program Council as well as the Membership Assembly and is entitled to one vote on each. The relationship between the member agency and the PDRMA Health Program is governed by a contract and by-laws that have been adopted by resolution of each member's governing body. Members are contractually obligated to make all monthly payments to the PDRMA Health Program and to fund any deficit of the PDRMA Health Program upon dissolution of the pool. They will share in any surplus of the pool based on a decision by the Health Program Council.

Complete financial statements for PDRMA can be obtained from the PDRMA's administration offices at 2033 Burlington Avenue, Lisle, Illinois 60532.

#### 8. RETIREMENT FUND COMMITMENTS

### Illinois Municipal Retirement Fund

The District's defined benefit pension plan, Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available report that includes financial statements and supplementary information for the plan as a whole but not by individual employer. That report may be obtained by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or at www.imrf.org.

#### Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

NOTES TO FINANCIAL STATEMENTS (Continued)

#### 8. RETIREMENT FUND COMMITMENTS (Continued)

Illinois Municipal Retirement Fund (Continued)

Plan Membership

At December 31, 2017 (most recent information available), IMRF membership consisted of:

Inactive employees or their beneficiaries	
currently receiving benefits	9
Inactive employees entitled to but not yet receiving benefits	8
Active employees	9
TOTAL	26

#### Benefits Provided

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011 are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. Employees hired on or after January 1, 2011 are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

#### Contributions

Participating members are required to contribute 4.50% of their annual covered salary to IMRF. The District is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution rate for the calendar year ended December 31, 2018 was 16.78% of covered payroll.

NOTES TO FINANCIAL STATEMENTS (Continued)

#### 8. RETIREMENT FUND COMMITMENTS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Actuarial Assumptions

Asset valuation method

The District's net pension liability was measured as of December 31, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date	December 31, 2017
Actuarial cost method	Entry-age normal
Assumptions Price inflation	2.50%
Salary increases	3.39% to 14.25%
Interest rate	7.50%
Cost of living adjustments	3.00%

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2014). IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2014). IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2014). IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Market value

#### 8. RETIREMENT FUND COMMITMENTS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

#### Discount Rate

The discount rate used to measure the total pension liability was 7.50% in 2017. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the District's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Changes in the Net Pension Liability

	(a) (b)				(a) - (b)		
		Total		Plan		Net	
		Pension	]	Fiduciary	Pension

# 8. RETIREMENT FUND COMMITMENTS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended December 31, 2018, the District recognized pension expense of \$79,308. At December 31, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	Deferred			Deferred		
	Outflows of			nflows of		
	Resources			Resources		
Difference between expected and actual experience	\$	33,016	\$	-		
Changes in assumption		15,250		54,942		
Net difference between projected and actual earnings						
on pension plan investments		39,755		96,854		
Contributions subsequent to measurement date		70,529				
TOTAL	\$	158,550	\$	151,796		

\$70,529 reported as deferred outflows of pensions result from the District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the measurement year ending December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

Year Ending December 31,	
2019	\$ 8,703
2020	(11,886)
2021	(30,432)
2022	(30,160)
TOTAL	\$ (63,775)

# 8. RETIREMENT FUND COMMITMENTS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the District calculated using the discount rate of 7.50% as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.50%) or 1 percentage point higher (8.50%) than the current rate:

		Current							
	19	% Decrease (6.50%)		scount Rate (7.50%)	1% Increase (8.50%)				
Net pension liability		701,711	\$	484,078	\$	303,793			

#### 9. OTHER POSTEMPLOYMENT BENEFITS

#### a. Plan Description

In addition to providing the pension benefits described, the District provides other postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through its personnel manual. The plan is not accounted for as a trust, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The District's total OPEB liability as of December 31, 2018 is immaterial and, therefore, not recorded by the District.

The following are the summary results from the District's actuarial valuation performed at December 31, 2018.

Liabilities	\$ 39,538
Deferred inflows of resources	3,114
Deferred outflows of resources	174
Total OPEB expense	(1,917)

NOTES TO FINANCIAL STATEMENTS (Continued)

# 9. OTHER POSTEMPLOYMENT BENEFITS (Continued)

#### b. Benefits Provided

The District provides postemployment health care and life insurance benefits to its retirees. To be eligible for benefits, an employee must qualify for retirement under the District's retirement plan. The retirees pay 100% of the average employer group cost.

# c. Membership

At December 31, 2018, membership consisted of:

Retirees and beneficiaries currently receiving benefits	-
Terminated employees entitled to benefits but	
not yet receiving benefit them	-
Active employees	10
TOTAL	10
Participating employers	1

Notes to Required Supplementary Information

The information presented was determined as part of the actuarial valuations as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed and the amortization period was 26 years; the asset valuation method was five-year smoothed market; and the significant actuarial assumptions were an investment rate of return at 7.50% annually, projected salary increases assumption of 3.75% to 14.50% compounded annually and postretirement benefit increases of 3.00% compounded annually.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

# NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2018

#### **BUDGETS**

The District operates under the Appropriations Act. All financial statements utilize the term "budget" to reflect estimated revenue and appropriations. The budgets are prepared using generally accepted accounting principles to reflect revenues and expenditures/expenses; the same basis of accounting that is used in the preparation of the basic financial statements.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. All departments of the District submit requests for appropriation to the District's director so that a budget may be prepared. The budget is prepared by fund, function and activity, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year. All appropriations lapse at fiscal year end.
- 2. The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget.
- 3. Prior to March 31st, the budget is legally enacted through passage of an ordinance.
- 4. Management can make transfers between individual expenditure line items within a fund, but approval by the Board of Commissioners is required in order for management to make transfers between individual funds. The Board of Commissioners may authorize transfers not to exceed 10% of budgeted expenditures for the year. An ordinance must be filed with the county in order for the budget to be amended.
- 5. Formal budgetary integration is employed as a management control device during the year.
- 6. Budgeted amounts are as adopted by the Board of Commissioners.

Budgets for the General, Special Revenue, Debt Service, Capital Projects and Permanent Funds are legally adopted on a basis consistent with GAAP. Because the level of legal control is at the individual fund level, expenditures may not legally exceed appropriations at the fund level. Any expenditures in excess of the legally adopted appropriation at the fund level must be approved by the Park District Board through a supplemental appropriation. During the year ended December 31, 2018, the Park District Board passed and ordinance to amend the appropriation ordinance.

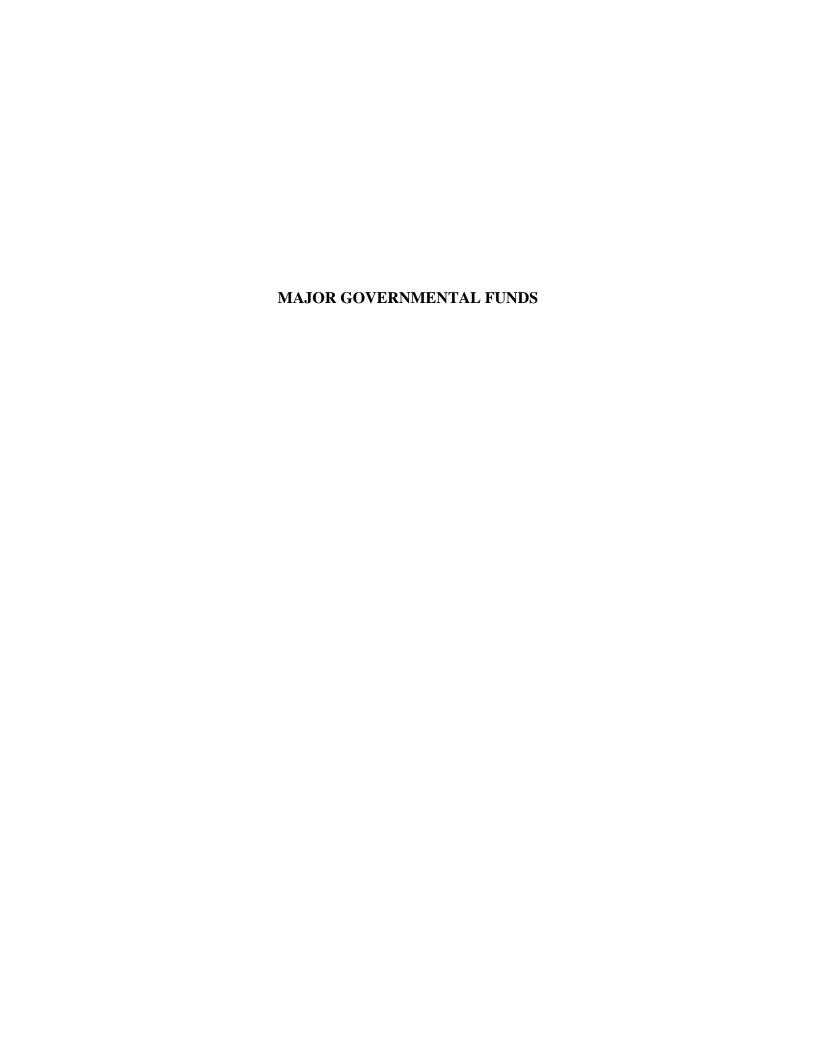

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (Continued)

# STATISTICAL SECTION

This part of the Medinah Park District, Medinah, Illinois' comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information displays about the District's overall financial health.

Contents	Page(s)
Financial Trends  These schedules contain trend information to help the reader understand how the District's financial performance and well-being have been changed over time.	47-50
Revenue Capacity  These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	51-54
Debt Capacity  These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	55-58
Demographic and Economic Information  These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	59
Operating Information  These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	60-62

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

High School District 108	23,445,000	16.7578%	3,928,866
College of DuPage 502	210,280,000	0.9321%	1,960,020
Total Overlapping Debt	565,665,024		16,152,386
TOTAL DIRECT AND OVERLAPPING DEBT	\$ 565,665,024		\$ 16,152,386

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and business should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt, of each overlapping government.
